Mrs. A. I. Parnell has returned from the annual conference of Southern Spirella Company, Inc., where the organizers of the company gathered at The Henry Grady Hotel,

One of the highlights brought out was the patriotic urge and solution of meeting war conditions in organic, surgical and corrective supports, as well as foundation garments from a dress standpoint. Spirella Co., Inc., has had its greatest volume of business up to May 1st, 1942, ever received in any previous year

Mrs. Parnell is in Elba, at Brunson Hotel, every weekend and invites ladies of Elba to call on her there for further information about foundation garments.

TO THE PEOPLE OF ALABAMA:

It now appears necessary that I continue my campaign for reelection as Associate Justice of the Supreme Court of Alabama, which I shall do as vigorously as the duties of th In the recent primary it was urged that I am eligible for retirement from the Supreme Court. My retiremen would mean that the people of the state would pay two salaries where only one is necessary. I feel strongly that the people of the state who have generously provided retirement pay for judges did not desire that it be taken advantage of by Judges of the Supreme Court who are fully capable of performing their duties. Had I not been capable of performing my duties, I would not have announced. My health is of the best. I have never missed a day from my duties on the court by reason of illness. In this time of war we are all desirous of performing the full measure of service of which we are capable.

Eminent lawyers of this state urged me not to retire and did not run for this office because I am a candidate. I assure the people of this state who have honored me with this office that if there should be in the future any reason why I should retire. I shall not hesitate to do so in order that my successor e selected by you in an election which all candidates will feel free to enter I am deeply grateful to my loyal friends and supporters

DON'T DO THIS

and Your Electric Washing Machine Will Last Longer

Don't cram more clothes into your washing machine than its rating calls for. Overloading it prevents it from doing the best job, and also puts a strain on the mechanism. It's also hard on the clothes. Don't start the washer with either agitator or wringer engaged. Doing this is similar to starting your automobile engine with the car in gear.

INTO VICTORY GARDENS the family food supply, Alabamy AUBURN, Ala.—Don't let your branch bottoms grow briars and snakes this summer when they can be converted into successful "victory" gardenss. That is the advice of C. L. Isbell, horticulturist of the Alabama Experiment Station.

the family food supply, Alabama farm women can utilize many rich food products growing wild in fields and forests and on mountainsides.

In times like the present, Alabama housewives will be wise to get acquainted with these food products—native wild fruits, nuts, and herries—and use them to products.

According to Dr. Isbell, now is the time to clean up bottom land, get it ditched, apply manure, turn it under, and fallow the land in order to have an abundance of vegetables this fall.

products—native which trints, nuts, and berries—and use them to provide low-cost variety in meals and to supplement the food budget, says Mildred Simon, extension nutritionist.

When ripe, a wild persimmon

When ripe, a wild persimmon is about as soft as a baked apple or baked custard and is a delicious fruit, very high in food value, richer in calories than bananas.
